31 May 2020

Dear Year 8 Parent/Carer

## Re: Summer Term Timetable

I hope that you and your family are well and that you enjoyed the half-term break. Further to my letter on 22 May 2020, please find below the Summer timetable for year 8.

As a result of the recent parental survey, we have modified the demands required of pupils on a daily basis to reflect the circumstances we all find ourselves in. Obviously, this timetable is subject to change depending on Welsh Government advice and guidance regarding any potential opening of schools prior to the summer holidays.

We have allocated each subject lesson an hour slot, with a 30-minute interval between sessions. From a wellbeing perspective, we also encourage your child to participate in regular physical activity. Hence the reason we have allocated sessions throughout the week.

	Session 1	Session 2	Session 3	Session 4
Year 8	09:00 - 10:00	10:30 - 11:30	12:00 - 13:00	13:30 - 14:30
Mon	Option A	English	Maths	Physical Activity
Tue	Option B	Maths	Science	Physical Activity
Wed	Option C	Science	English	Physical Activity
Thu	Option D	Welsh	Maths	Physical Activity
Fri	English	Assembly*	Science	EPS

\* Assembly starts at 11:00.

Departments will upload the work to SMHW as usual and will respond to any queries your child may have via email. In response to the parental feedback, from next week, we will upload the work on Friday afternoons so that you can help your child get organised on Sundays if necessary as we appreciate that juggling your own work commitments and those of your child on a Monday morning can be a challenge.

Whilst your child will be aware which option subjects they have chosen, they will not know the blocks their choices are in. On SMHW, the Heads of Department have created a single class containing all the pupils who have opted for their subject to make it easier to find the work. For convenience, the option blocks are highlighted overleaf:

8A	8B	8C	8D
Art	Art	Business Studies	Art
Computer Science	Business Studies	Computer Science	Business Studies
Geography	Food & Nutrition	Drama	Computer Science
History	Geography	Food & Nutrition	Food & Nutrition
Media	History	French	Geography
Music	Health & Social	History	History
Product Design	PE	IT	IT
Religious Studies	Product Design	Qualifications+	Product Design
Qualifications+			Sociology
			Qualifications+

Mr Gubb (Director of Lower School), will also be holding weekly online assemblies for the year group on Microsoft Teams. This will be an ideal opportunity for pupils and pastoral staff to meet collectively. Mr Hardy will send your child details on this soon.

Many thanks for your continued support during this challenging time.

Yours sincerely

Mr A D Williams

Headteacher
