24<sup>th</sup> June 2026

### **School Closure – Thursday 25 June 2026**

I am writing to inform you that, following a further review of conditions across the school site today, we have made the decision to close the school fully tomorrow, Thursday 25 June.

This is not a decision we have taken lightly. However, the Met Office Red Weather Warning remains in place and temperatures tomorrow are forecast to be even higher than today. During checks of the school site, a number of classrooms have already recorded temperatures above 35°C. Given the forecast, we do not believe that we can safely and adequately mitigate the risks to pupils and staff by keeping the school open.

Our risk assessment has considered a number of factors, including the very high temperatures in classrooms, limited air-conditioned spaces, limited shaded areas outside, high demand for water fountains, and the risks associated with pupils and staff being on site during the hottest part of the day. Taking all of this into account, the safest course of action is to close the school fully tomorrow. Pupils should not attend school tomorrow. We appreciate that this may cause disruption for families, and we are sorry for the inconvenience. However, the health and safety of pupils and staff must come first.

Please remind your child not to go to local rivers or open water to cool down, as these areas can be extremely dangerous, particularly without supervision.

The school will reopen as normal on Friday. We will continue to monitor conditions closely and will update parents and carers if there are any changes. Pupils may continue to wear PE kit on Friday if they would prefer to do so.

There will be work available if pupils log into Teams, however given the unprecedented heat, there is no obligation for your child to complete any work tomorrow.

Thank you for your understanding and support.

Kind regards,

Yours faithfully,

Owen Wood

Acting Headteacher
